Mahlo quality, used weft-straighteners

**COMPLETELY
mahlo
OVERHAULED**

- **Quality inspected**
- **Guaranteed**
- **Covered by Mahlo's after-sales-services**
- **Attractively priced**

This label signifies value for money

- Over the past few decades, weft-straighteners from Mahlo have helped promote a top-quality finish in the textile industry. Straighteners displaying the label >> COMPLETELY OVERHAULED << are used machines of an older generation, which our specialists have restored into tiptop working order. Please ask for our latest stock list.

What you stand to gain: you will get a guaranteed, quality product from a reliable company, at a very attractive price.

Straightening weft with an Orthomat implies quick as a flash detection, instantaneous response of the bow and skew rollers, and thus the least possible degree of residual distortion.

worldwide

worldwide

With over 40 service centres around the world, we guarantee a prompt response to calls for service, and delivery of spare parts within 24 hours.

A new, remote-diagnostics system enables our technicians to access, via telephone, the software in our customers' systems, and make any necessary adjustments, or resolve problems promptly.
