

Upgrade Orthopac RVMC-12 to Orthopac RVMC-15

Straightener technology of the latest generation

Upgrade Orthopac
RVMC-12 to Orthopac
RVMC-15

Fit for Industry 4.0

In order to enable the immediate interaction of machines, data must be exchanged reliably and easily configurable via secure communication. With the Generation 15 upgrade, the customer can access the machine not only from anywhere – provided an Internet connection is available. Customers also have the option of connecting any machine to the network via an OPC UA server – i.e. an interface for software from different manufacturers – with the fitting connectivity.

Networking

- Communication between machines and operators

Transparency

- Data available online, including historical data

Technical support

- Remote service by service technicians from Saal or by local sales partners

Decentralised decisions

- Online control of important parameters directly at the production machine

Take advantage of the benefits of the upgrade package today

- ✓ Secured spare parts supply for the future
- ✓ Improved and future-proof technology (e.g. optimized control loop)
- ✓ Integration of older machine generations into the existing setup
- ✓ Sustainability of production by upcycling existing machines
- ✓ Increased efficiency

Stay one step ahead of the competition – with Mahlo!

Your point of contact for the upgrade

Please contact us!

Our experts will gladly assist you. Of course, free of charge and without any obligation.
